LEAD MACHINIST | Machining Operations

Machinist with 8 years of experience in machining and operating lathes, milling machines, and grinders. Skilled in reading blueprints and maintaining precision equipment. Seeking a position where I can contribute to efficient production and quality control.

EXPERIENCE

Machinist | 2017 – Present
Apex Manufacturing Solutions | Delta, MA

- Operate lathes, milling machines, and grinders to produce precision components for aerospace and medical industries.
- Read and interpret blueprints, technical drawings, and specifications to determine machining requirements.
- Perform routine maintenance on machines, including cleaning, lubricating, and replacing worn parts.
- Inspect finished products using micrometers, calipers, and gauges to ensure they meet quality standards.
- Collaborate with engineers to develop and improve machining processes, reducing production time by 15%.

Machinist | 2015 – 2017
Riverstone Tool & Die | Delta, MA

- Set up and operated CNC machines to produce parts for automotive and industrial clients.
- Programmed CNC machines using CAD/CAM software, optimizing tool paths for efficiency.
- Trained new employees on machine operation and safety procedures.
- Maintained a clean and organized workspace, adhering to 5S principles.

Machinist Apprentice | 2013 – 2015
Delta Technical Institute | Delta, MA

- Completed a four-year apprenticeship program, learning the fundamentals of machining and metalworking.
- Assisted experienced machinists with setting up and operating machines.
- Performed basic maintenance on machines and tools.
- Learned to read blueprints and interpret technical drawings.

EDUCATION

Associate of Applied Science in Machining Technology | 2013
Delta Technical Institute | Delta, MA

SKILLS

Lathes · Milling Machines · Grinders · CNC Programming · CAD/CAM Software · Blueprint Reading · Precision Measurement · Quality Control · Maintenance · Safety Procedures · 5S Principles

CERTIFICATIONS

- OSHA 10-Hour Safety Certification
- Machining Technology Certificate, Delta Technical Institute
